Environmental Sustainability Policy

Otraco International is committed to the principles of environmental sustainability and conducting its business activities in an environmentally responsible manner.

Our commitment is to:

- Minimise the impacts of our activities on the environment and local communities through responsible environmentally sustainable management and promoting resource use efficiency by implementing effective controls to identify, evaluate and mitigate adverse environmental risk of our work activities.
- Promote a positive culture through implementing initiatives that foster sustainable innovation and promoting a culture of continuous environmental improvement.
- Optimise our services to relentlessly improve our environmental sustainability performance and improve the sustainable use of natural resources.
- Comply with environmental legislation, appropriate industry guidelines and standards, regulatory bodies, statutory obligations, customer specifications and any voluntary criteria to which we subscribe.
- Maintain our Environmental Management Systems in accordance with AS/NZS ISO 14001 and integrate the requirements throughout our operational systems using regular audits.
- Establish, monitor, and review objectives and targets for environmental sustainability to improve our environmental sustainability performance.
- Demonstrate our commitment to the prevention of pollution through site-level controls and client-aligned practices, as outlined in our internal audit framework. This includes spill response, hazardous material management, waste segregation, and participation in client-led environmental monitoring programs.
- Source goods, services, works and utilities to minimise environmental risk and maximize environmentally sustainable opportunities and benefits for the total life cycle.
- Drive innovation to reduce emissions identify sustainable supply chains, reduce operational energy, waste and water consumption, and mitigate climate change.
- Engage, communicate and report openly on environmental sustainability matters with stakeholders, to deliver beneficial environmental sustainability outcomes.
- Provide ongoing education, training, and encouragement to our workforce & business partners in understanding their responsibilities for the implementation of environmental sustainability principles and practices; and
- Displaying this policy, making it publicly available and sharing it with interested parties.
